Attachment 1 of 1 to CLM-2026-0005

DOC-C005-01 | Emergency Department Visit Summary (submitted with CLM-2026-0005)

Facility: Cedar Valley Regional Hospital, Emergency Dept (synthetic, out-of-network on all plans) | **Date of service:** 2026-10-03
Patient: MBR-100056 (58-year-old male)

Arrival: 21:40 by private vehicle, walked in. **Triage:** ESI level 2.
Chief complaint: Chest pressure radiating to left arm for 30 minutes, with sweating.
Workup: ECG: normal sinus rhythm, no acute ST changes. Chest X-ray 2 views: no acute findings. Cardiac enzyme tests: negative x2 (billed separately by hospital lab, not on this claim).
Disposition: Discharged 02:15 with outpatient cardiology follow-up. Not admitted.
Final diagnosis: Chest pain, unspecified (R07.9).
Notes: Nearest in-network facility is approximately 38 miles away. Patient did not choose this facility for convenience.
